## Dean Moore

(The Warrior)

Enters Stanford Hospital March  
25, 2002

I visited Dean and Angela Moore at Stanford Hospital on March 25, 2002 and I was amazed and humbled at their ability to remain strong in very difficult times. Angela who is suffering from lupus just had surgery and she has been supporting her husband 100% percent. Angela also needs to be taken care of but she is doing it all as if nothing was wrong. I had asked her how her faith is holding up and she straight up told me .. GOD IS GOOD ... I quickly realized the petty things I called problems in my life were no problems at all when you compare what Dean and Angela Moore are going thru. I prayed for Dean and believed with all my heart that he would experience a miracle that second to be healed. It did not happen and at times my faith is also tested. I am told that GOD has all things under control but in times like this it can be difficult to believe these things. Dean and Angela have demonstrated to me a totally new level of

faith. I don't trust GOD like Dean and Angela trust GOD. I don't know how I would hold up to circumstances of this magnitude. I ask that those that could not visit Dean visit Dean thru these pictures and sincerely pray for the Moore family. PLEASE AND I SAY PLEASE, DO NOT SECOND GUESS WHAT THE HOLY SPIRIT MIGHT BE TELLING YOU TO DO FOR THE MOORE FAMILY. JUST DO IT...!!!

I speak from experience... The Holy Spirit told me back before things got this rough to bless Dean with some money and because I saw Dean well dressed I roll played that fact that I would offend him and I ended up not doing it. I later found out he was in great need financially. The medicine bills are incredible. I go on a lim and dare to say that most called Christians want to see the power of GOD but are not willing to yield to the Holy Spirit directions to see that power. We are too fickle and think that GOD cannot use us. WRONG!!

At Stanford Hospital  
March 25, 2002

Dean in these pictures is fighting for life because his heart has been thru several heart attacks and now sits with an enlarged heart. His vital signs are not stable and Stanford doctors attach many types of probes to monitor Deans vital signs. There is talk that Dean will need a new donors heart.

April 25, 2002

I'm amazed at the gifts GOD has given the doctors of this era. Below is a quick breakdown of what has been done to Dean to keep him alive. After the mini slide you see below, you will see how this pump has enabled Dean to stay alive and once again walk on his own two feet. AMAZING!!

The pump is called an NovacorÆ LVAS (Left Ventricular Assist System).

## Dean Moore

Goes To Church at Jubilee  
Christian Center April 28.

The first time I went to see Dean at Stanford hospital back in March 25, 2002. He had told me "I will be back in church", I was skeptical about it being that I saw his

condition. Dean was being guided by his faith and I was being guided by what I saw. Dean is pleasing GOD tremendously because the word of GOD says;

**Hebrews 11:6-** Without faith it is impossible to please him; for he that cometh to GOD must believe that he is, and that he is a rewarder of them that diligently seek him.

**1 Peter 1:7-** That the trial of your faith, being much more precious than of gold that perisheth, thought it be tried with fire, might be found unto praise and honour and glory at the appearing of Jesus Christ.

**2 Timothy 4:7-** I have fought a good fight. I have finished my course, I have kept the faith.

 Visits World Heart

Dean Moore thanks GOD Almighty.

Dean has been thru hell and back. There are many who are praying for the Moore family and the prayers are getting answered (James 5:15-16). I thank GOD for His everlasting Love and Faithfulness. GOD will bring complete healing to you and your family (Isaiah 53:4-5). May God's GRACE and FAVOR continue to flow in your life. I believe with all my heart that the Lord Jesus is carrying you in his arms throughout this season in your life. When we are weak, He is strong. To God be the Glory.

**Dean Moore's**  
 Organ Heart Arrives.

Note: His heart transplant went well and it occurred on 07/19/2002 at 6:00 am. Dean has been discharged from the hospital and walking around like if nothing happened. UNBELIEVABLE RECOVERY.
